

The Beaumont Hotel is a luxury, five-star boutique hotel situated in Mayfair, London. Opened in 2014, the hotel is inspired by the great Art Deco hotels of the 1920's and delivers a grandiose and elegant experience - its a subtle return to Mayfair's pre-war elegance.

The hotel boasts 50 rooms, 13 studios and 10 suites which are designed to the highest standards and with guests ultimate comfort in mind.

Mega Glass and Mega Marble worked exclusively with Chorus to help bring the vision to life. They were selected due to their ability to provide both the glass and the stonework and also their passion for innovation and understanding of the brief.

Every detail was meticulously planned and each material carefully selected to achieve the desired effect. Mega Glass supplied and fitted the hotel's 83 bathrooms and bedrooms. Each with bespoke coloured glass wall tiles, glass vanity units, beveled mirrors and fire-rated reeded glass doors.

Scope of Works:

To supply and install glass throughout the hotel including mirrors, privacy doors, bespoke vanity unit glass cladding, glass wall tiles and shower screens to en-suite bathrooms; supply and install bespoke glass tiles to public bathrooms; to supply fire-rated coloured reeded glass panels for all public area doors and to provide all glass and mirrors to spa and leisure centre.

Brief:

To work alongside Mega Marble (manufacturers and installers of stone, mosaic and vanity units throughout hotel) to install the stone and glass throughout this luxury 73 room and 23 suite boutique hotel in Mayfair designed to offer old-world aesthetics with contemporary comfort. Production and installation of the stone and glass throughout the hotel was co-ordinated by a single Project Manager to ensure the programme was optimised at all times.

Development:

Significant period of upfront aesthetic research and development to identify the right glass for each and every element of the job. This involved:

- Working closely with the client team to deliver the exact colour palette. Sample glass tiles were manufactured in 5 core colours in many hues before 3 colours of exact hue were selected.
- Manufacturing and hand finishing of more than five thousand 300 x 600mm glass tiles.
- Mega Glass looked at alternate glass suppliers across the UK and Europe to source the exact specification of reeded fire rated glass.

Outcome:

A design-award winning hotel that Mega Glass contributed to, where our works were delivered on-time, to brief and to much acclaim.

WORK WITH US

Our work speaks for itself and showcases the diversity and capabilities that we can bring and deliver to your project. Should you wish to speak to a member of the team about a forthcoming project please call us directly on 01582 809498.
