

LINEAR TEXTURES

MODERN TRENDS MEET INDUSTRIAL FLAIR

Linear textures have stood the test of time though the selection available to the UK market remains slim. At Mega Glass, in keeping with our one-stop-glass shop philosophy, we have gone the extra mile to ensure that we go beyond tradition to ensure your vision is met with our core variants kept in stock.

Details:

At Mega Glass, we source our products globally to ensure that design objectives are met with choice in specification to suit the desired application.

In stocking multiple options to the conventional reeded format, we have brought industrial tradition in design to the 21st century.

All of our linear range can be polished, machined and toughened and combined with a host of other glass processes, offering true flexibility in production and effective compatibility to a variety of designs.

Key Applications:

Airports, Stations, Museums, Offices, Hotels, Restaurants, Partitions, Commercial Washrooms, Domestic Kitchens and Bathrooms, Shower Systems
