

## THE IDEAL WAY TO CAPTURE THOSE IDEAS

The unique properties of glass make our low profile Mega Magnetic glass wipe-boards perfect for offices and environments that need smart, sleek and functional surfaces to capture ideas and plans. Mega Magnetic is manufactured using optically clear low iron thermally toughened glass or our fantastic i-Clad Safety Glass (with a cost saving) as its base material – we can cut them to any size and even colour match the glass to compliment your office décor!

Manufactured with you in mind, our Mega Magnetic Glass Wipe-Boards can be supplied with or without edge trims; with or without fixing kits – we work tirelessly to deliver your vision.

Our in house engineered wipe-boards can be used in a variety of environments including offices, schools, universities, hospitals, training centers, sales rooms, boardrooms, residential... A truly versatile product to suit a wide range of industries.

We offer a full range of colours as well as specific printed designs including your company logo. If you prefer a more subtle finish, we can manufacture using a special acid etch to enable full functionality with a non-glare finish.

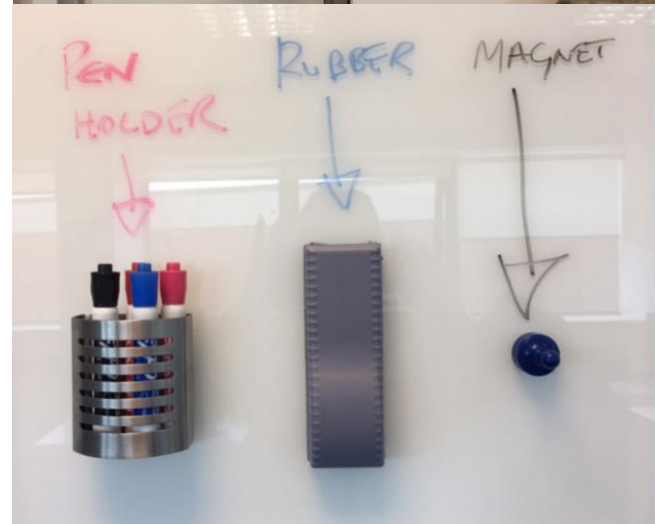

### Mega Glass Limited

**Head Office and Factory** – Unit 3, Foster Avenue, Woodside Park, Dunstable, LU5 5TA
