

MIRROR, MIRROR ON THE WALL...

...Or anywhere else, for that matter! A product recognised by all, the mirror has been widely used as a product on glass for over 150 years. With technological evolution, mirrors have developed in to something more than just reflection – serving function with aesthetic, Mega Glass holds a huge range covering tints, satins and antiques!

With options available across 4mm and 6mm incorporating over 20 finishes, our market leading mirror range will satisfy an array of designs, functions and aesthetics. From a single mirror affixed on the bathroom wall to a laminated mirror incorporating a complex design in a liftcar, Mega Glass has made commitments to making sure that we are prepared to manufacture to your exact requirements.

Our mirrors can be supplied with or without fixtures, and are fully compatible with demister pads to lower the build up of mist on the surface in moisture rich areas. We can apply the demister pads in house for you, or supply separately with the mirrors in both mains and low voltage. Functionality can be boosted furthermore with the application of our anti-bacterial coating – applied to help avoid the build up of scale, dirt and bacteria and thus make the cleaning process easier.

Key applications include Gyms & Leisure Centres, Splashbacks, Interior & Exterior Wall Cladding, Lift Lobbies, Bathrooms, Wall Tiles, IPS Panels.
