

GLASS INNOVATION THAT YOU WILL WARM TO

Mega Rad is a revolutionary product that will make your home, office or living space feel warm, luxurious and inviting. Mega Rad utilises the thermal qualities of glass combined with a radiator core that can be plumbed-in or fully electric. The versatility of Mega Rad extends beyond this with availability in a number of sizes and limitless finish possibilities; from back painted glass to digitally printed glass, from standard mirror to a wide range of tints, from a gloss to acid etched glass - we have the solution for you. Mega Rad combines impressive heating efficiency with an aesthetic facia that can be retro-fitted into an existing space or new interiors.

Mega Rad can be used both in a commercial and domestic environment and is offered in a variety of sizes and btu/watts ratings.

The external facia is manufactured using our very own i-Clad Safety Glass which is mounted to the front of the radiator core to give it a unique and attractive finish. i-Clad Safety Glass comes in an extensive range of finishes providing design possibilities to suit every taste. Our range includes standard colours (any), special effects on standard colours, plain and tinted mirrors or digitally printed designs - all available in a gloss or matt finish.

The range comes in 4 standard sizes and outputs with other sizes available on request whilst every radiator comes with a 10-year guarantee against peeling or crackles under normal condition of use. Mega Rad already supplies beautiful heated solutions to hotels & health spas, showrooms, restaurants & pubs, offices and domestic living areas.
